

High Temperature Composting

A Superior Solution to Managing High-Volume Composting

- Increased capacity
- Improved drive system
- Counter-balance action
 - Fewer moving parts
 - Less maintenance

The Rotoposter®, manufactured by Rotary Composters, LLC, is designed to speed up the composting process while providing multiple additional benefits.

These large, heavy duty rotary composters can handle **up to 24,000 lbs of organic matter weekly** and provide year-round bio-secure composting. (See chart on back.)

Benefits Include:

- **Cost Effective Alternative**
 - Eliminate rendering fees & incineration costs
 - Create valuable compost
- **Improved Biosecurity**
 - Eliminate rodents & scavengers from digging into compost piles
 - Reduce flies
- **Ease of Use**
 - Safe to operate
 - Few moving parts = minimal maintenance
 - Easy loading chute

Reduce Your Environmental Impact:

- Turn your waste stream into a profit stream with an organic, marketable product
- Reduce synthetic fertilizers
- Improve your soil health and ability to retain moisture
- Improve crop yields
- Use in landscape beds
- Apply to lawns and sports fields

The Rotoposter Provides an Eco-Friendly Disposal Solution for Many Industries

The **Rotoposter** offers many different industries the cost-saving option of high-volume composting. Anything that will compost on a pile can be composted faster & more efficiently in the Rotoposter, including:

- Food Waste
- Livestock & Poultry Mortalities
- Manure
- Egg Waste
- Butcher Shop Offal
- Yard & Landscaping Waste

Large loading hopper makes loading easy

Rotary Composter partner Kurt Good explains updated & improved drive system

Easy-access control panel is simple to operate and customize

Rotoposter Operating Capacity

| Model # | Max. Operating Capacity (Cubic Yards) | Estimated Weekly Inputs - Organic Matter LBS. Per Week | | |
|---------|--|--|---|--|
| | | 3 - 5 Day Retention Preblended materials & egg waste | 5 - 10 Day Retention Food Waste Poultry Mortality | 15 - 21 Day Retention Large intact carcasses (calves, deer, sows, etc) |
| 724 HD | 23 - 26 | 7,000 | 5,000 | 3,500 |
| 732 HD | 31 - 35 | 10,000 | 7,250 | 5,000 |
| 740 HD | 39 - 45 | 13,000 | 9,500 | 6,500 |
| 748 HD | 47 - 54 | 16,000 | 11,500 | 8,000 |
| 1032 HD | 63 - 72 | 20,000 | 14,000 | 10,000 |
| 1040 HD | 79 - 90 | 24,000 | 17,000 | 12,000 |

"The Rotoposter makes composting easy and provides a clean look, all while minimizing flies."

- Mark E. Manheim, PA
